# Goftanbon keno

## Software Developer

**CONTACT**

**Phone**: +251 901057329

**Email**: goftanbonkeno@gmail.com

**Address**: lideta,04/28

**GitHub**: https://github.com/Goftanbon

**SKILLS SUMMARY**

**languages:** java, C# ,javaScript ,Dart,Typescript,SQL

**Tools:** MySQL ,SQLite ,PostgreSQL ,Postman , insomnia, GitHub, Linux

**soft skills :** Excellent communication, Problem solving skill, Adaptation to Environment

**PROFESSIONAL EXPERIENCE**

### Full stack webDeveloper
NovaComputech (Internship)

- Developed and tested a RESTful API for a new product line, integrating it with frontend components to ensure seamless user experience.
- Optimizing the existing API endpoints by implementing caching strategies and asynchronous processing improving overall system performance .
- Streamlined the API testing process using Postman and Insomnia, and contributed to frontend testing workflows to reduce manual QA time across the stack.

### Backend Developer(Node js)
NovaComputech

- Developed and testing a RESTful API a new product line.
- Optimizing the existing API endpoints by implementing caching strategies and asynchronous processing improving overall system performance .
- Automated API testing process using Postman and Insomnia , reducing manual testing time .
- Improved overall system performance by optimizing API endpoints through caching strategies and asynchronous processing, while also enhancing frontend responsiveness.

### Full-Stack Developer – | 2020–2022
CodeAbay technologies

- Design and Build robust error handling and monitoring system for in house WebApp
- working on React.js for beautiful and creative webpages and integrating with backend using axios and fetch API
- implemented advanced security measures, including  OAuth 2.0 and JWT authentication, resulting in a 90% reduction in security vulnerability and achieving SOC 2 Type || compliance

### Freelanching mob and web Developer

- Worked on various web and mobile projects for clients, focusing on full-stack development with React, Node.js, and Flutter.
- Fast delviring products while ensuring the quality and
- Integrating AI in the projects

## EDUCATION

**ST. Mary's University | 2020–2025**

Bachelor of Science in Computer Science

- GPA: 3.35
- Best Thesis

**Addis Ketma Preparatory school | 2018 – 2020**

High School

- President, The IT club

---

## CERTIFICATES

**JavaScript React.js**

Col john Robinson (American Center)

**Introduction to Machine learning**

Google
